SUMMARY

Final-year Bachelor of Computer Science student with hands-on experience across frontend development, mobile application development, Git/GitHub, Linux, Docker, Kubernetes, Jenkins, Firebase, and basic SEO. Built academic and practical projects using Flutter, Python, JavaScript, PHP, MySQL and cloud-based tools. Currently developing DevOps skills with a focus on Linux, containers, CI/CD and deployment automation, while continuing to strengthen frontend engineering and cybersecurity fundamentals.

TECHNICAL SKILLS

Frontend: HTML, CSS, JavaScript

Programming: Python, PHP, SQL, Dart

Mobile Development: Flutter, Firebase Authentication, Cloud Firestore

DevOps & Cloud: Linux/Ubuntu, WSL, Git, GitHub, Docker, Docker Compose, Kubernetes, Jenkins

Databases: MySQL, Firebase Cloud Firestore

Python / Data: Pandas, OpenCV, Matplotlib, Scikit-learn

Tools: VS Code, Graphviz, npm/Node.js

SEO / Digital: Keyword research, on-page SEO, Meta Titles & Descriptions, Google Search Console, Google Analytics (Basic), Google Keyword Planner, WordPress (Basic), Ahrefs/SEMrush/Ubersuggest (Basic)

ACADEMIC PROJECTS

Expense Tracker Mobile App | Flutter & Firebase

Developed a mobile expense-tracking application with Firebase Authentication and Cloud Firestore. Implemented login/signup, expense entry, categories, monthly reporting and cloud data storage.

DevOps Practice Environment | Linux, Git, Docker, Kubernetes & Jenkins

Set up and practiced a Linux/Ubuntu environment through WSL; worked with Git repositories, branches and stash workflows, Docker containers and Compose, Kubernetes namespaces/services and Jenkins CI/CD concepts.

Digital Image Processing Work

Worked with Python-based image processing concepts using OpenCV, NumPy, Matplotlib and related libraries as part of university coursework.

EDUCATION

Bachelor of Computer Science — UIT University, Karachi

Final Year / 8th Semester

EXPERIENCE

CMS Developer Intern — Tech Dot Solution

March 2026 – June 2026 | Karachi, Pakistan

- Assisted with Content Management System (CMS) configuration and website maintenance.
- Worked on theme customization and website updates.
- Performed technical troubleshooting to identify and resolve website-related issues.
- Adapted quickly to the development environment and collaborated effectively with the team.
- Maintained quality deliverables while working in a deadline-driven environment.
- Developed practical experience in CMS development, website maintenance, and technical

ADDITIONAL EXPERIENCE AND LEARNING

- Applied AI-assisted development tools for coding, debugging, learning and productivity.
- Explored frontend engineering, DevOps and cybersecurity as career paths and continued building practical skills through projects.
- Completed practical SEO learning covering keyword research, on-page optimization, search analytics and WordPress fundamentals.

CAREER OBJECTIVES

To begin my career in Information Technology through an IT Support Internship where I can strengthen my technical foundation in systems, networking, and troubleshooting while working towards my long-term goal of becoming a Cybersecurity Professional.
